

ASTIPARCHEGGI

pay the park with your smartphone

AstiParcheggi is one of the apps of **AstiSmartCity**, the new ASP project for a city in a click. An App by which you can pay for parking in 3845 blue city parking stalls, run by ASP, after downloading on your smartphone (Android, Windows and Apple) and have registered.

SAVINGS

pay the actual time of the stop

LOWER RISK FINES

you can adjust the duration of parking at any time

NO MORE COINS

pay conveniently with a click

SAFETY

secure on-line transactions

1 DOWNLOAD APP

To use AstiParcheggi **download App on your smartphone.**

The APP is **free** and available for the most common systems.

If you do not have an Android or IOS Smartphone, you can use the service through the **webApp** on <https://sosta.astiparcheggi.it>

2 SIGN UP

You can sign up directly from the **App** or on www.astiparcheggi.it, by entering your data.

The registration is **COMPLETELY FREE.**

Make your profile, thanks to which you can also define pre-configured stops (**stop with a click**) you use frequently.

3 ELECTRONIC PAYMENT

In order **to pay** for parking you must first charge the credit on your **profile.**

The function Reload of the App lets you buy it directly with **credit card via smartphones**, anywhere.

Everything is done in **complete security** and entering, only on the occasion of the first charging, the data of the credit card (Visa and Mastercard circuits).

No cost or fee is charged to the user.

4 PARK

Now you are ready to use **AstiParcheggi** service.

- **Sign in**
- Set the **car park**
- Set the preference to **end stop**

When your stop is over, possibly even before the set time, interrupt the payment, and only the actual time will be calculated.
